

SCARAB

2019

LIVE THE EMOTION

Scarab® is all about a feeling. It's where you can step into boats designed for exciting all the senses. It's where instinct is vital, and traditions are shattered. Share the moment and live for the #scarabadvantage...everything else is uncertain.

scarabjetboats.com

PERFORMANCE *DRIVEN*

Scarab was born to challenge the conventions of boat design so you could challenge the limits of boating. An alpha mindset drives our motives to produce boats with incisive handling, thrilling wakes, and legendary performance. Break the industry standards on fun. Experience the #scarabadvantage.

JET POWERED

Acceleration, speed, handling, there's nothing quite like piloting a Scarab jet boat. Your movements are crisp and the performance is unmatched. Live in the moment, hammer down, and feel the power!

ROTAX ENGINE WARRANTY

4-STAR ("ULTRA LOW EXHAUST EMISSIONS")

Run cooler and cleaner for longer life and better performance. Closed-loop cooling keeps external water and dirt out of the engine for longer life.

ROTAX

A weed and rope guard makes your day hassle-free. Our cutting-edge shaft guard prevents weeds, tow ropes, and grass flats from wrapping around the drive shaft. No need to clean out the ports that you find on other boats.

Lateral Thrust Control delivers quicker reverse. Unlike other boats, which feature a small, plastic reverse gate, our aluminum reverse gate offers unmatched low-speed maneuverability to make docking a breeze.

JET ADVANTAGES

1

SHALLOW DRAFT, BOTTOMLESS EXHILARATION

A low draft allows for better performing shallow water applications. Without the risk of chewing grass mats or vacuuming up sand, your favorite lakes just got that much bigger.

2

NO PROP, NO PROBLEM

We call it stern living; you call it family fun. Our propeller-free transoms ensure stress-free wake sports, safer swimming, and much larger swim platforms behind the boat.

3

360° MANEUVERABILITY

Turn the wheel and experience the diligent aluminum reverse gate kick into action. With Lateral Thrust Control you're always in full-command of your Scarab, in any sea condition—making your boating all-around better.

4

COOL RELIABILITY

Longevity out of your engine is crucial. Rotax® Closed-loop engine cooling keeps external liquid, dirt, and grime where it should be—out of the engine. Run cooler, live longer, and perform better with Scarab.

DOCK LIKE A **PRO**

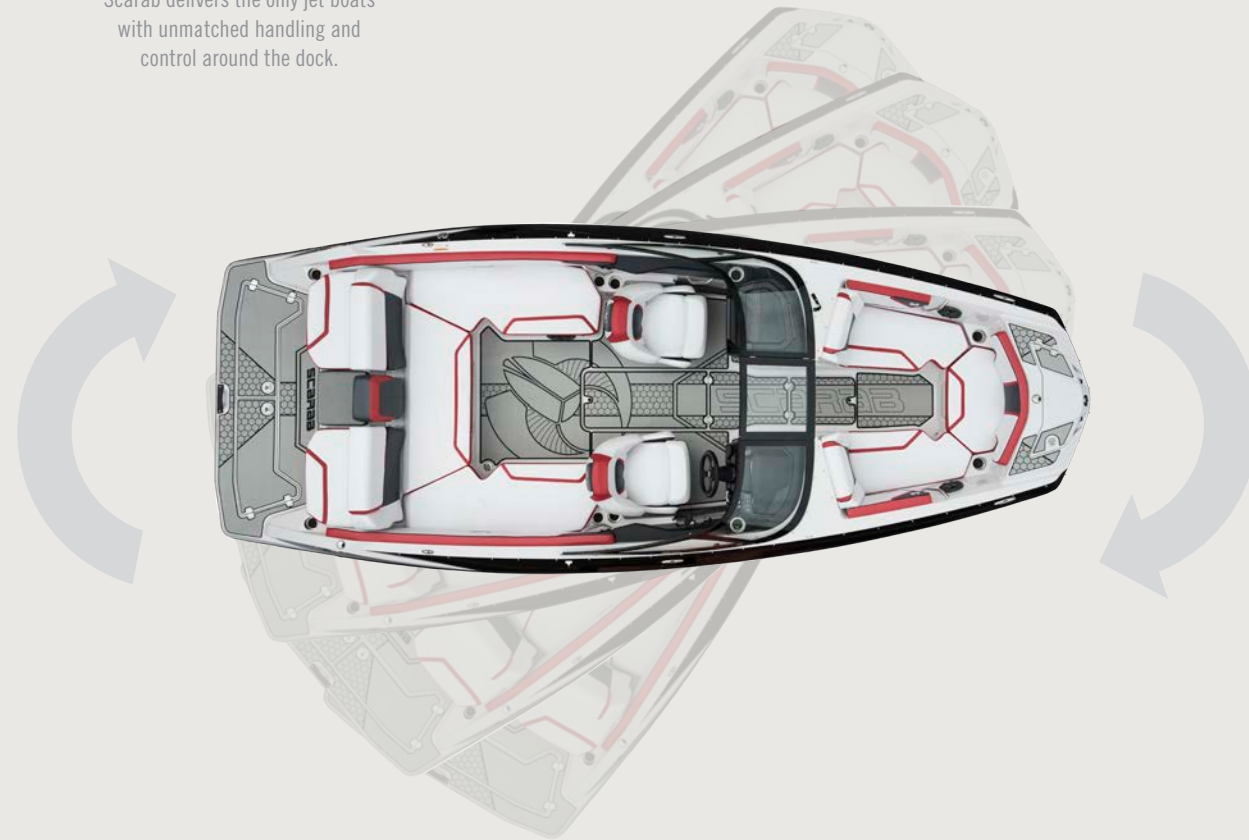

Bringing your baby back home is often a challenge with most boats—but not with Scarab! Whether it's your first time on the water or a tuned veteran, these jet boats twist and maneuver in ways you couldn't believe. Enjoy having those other guys wish they were you when you slide like a pro into that snug space.

ADJUST ON-THE-FLY

Customizing how your Scarab handles at the dock and on the water is a celebrated luxury. Take control of your fun with a fingertip's grip when establishing true neutral or adjusting ramp speed and throttle control.

TRUE NEUTRAL

Scarab delivers the only jet boats with unmatched handling and control around the dock.

TOTAL CONTROL

Traditional jet boats are known to be a handful at slow-speed maneuvers and stationary positioning. Scarab and Rotax teamed up and refined a system that removes and replaces that stress with confident boating. Achieve true neutral, spin 180s, and place the boat exactly where you intend. No more sweaty palms as you approach the dock.

iNR

INTELLIGENT NEUTRAL AND REVERSE (iNR)

More than just electronic actuation of the reverse gates, iNR is a game changing feature for jet propulsion. Designed to allow you to adjust your boat's neutral position on-the-fly, maintaining a true stationary location is a snap. The iNR system delivers smooth, effortless shifting and greatly increased low-speed maneuverability.

dSC

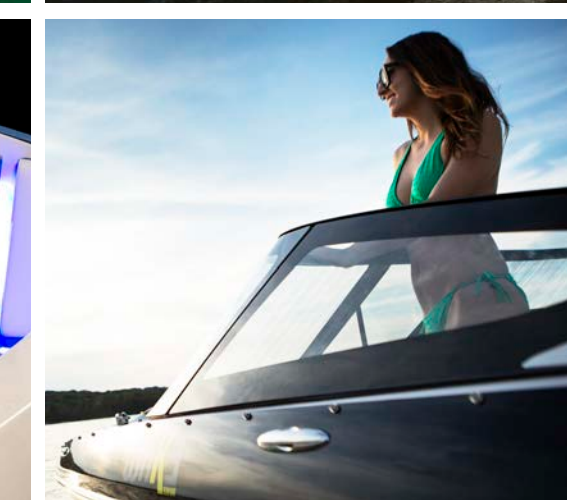

DIGITAL SPEED CONTROL

Level up your Scarab ID with Digi Speed for total control. Determine the agenda then swap between Eco, Docking, and Ski modes, at a moment's notice, to achieve maximum functionality out of your jet boat.

QUIET PERFORMANCE

Every Scarab 195 ID and up received plush matting—articulated within the engine compartment—designed to cancel noise frequency and reduce vibration. Nonstop Scarab performance without the annoying background rumble allows you to turn up your soundtrack for fun! (not available on G series or 165)

INNOVATION & DESIGN

Breathtaking purpose and form ensure that each Scarab model is designed to excite and thrill any boater that steps on board.

DELIVERED IN DETAIL

The highest quality marine-grade products are used within every Scarab jet boat. Unique touches like sport-infused textures, stainless fixtures and trimmings, and exotic color combinations are sure to appease your swarm of desire.

INNOVATIVE TAILGATE

Easily drop the tailgate for more room and easy access to the water when relaxing and fishing.

REBOARDING LADDERS

Safely rejoining the crew is easy with a deep-reach stern ladder.

VERSA LOUNGE

Available Versa Lounge seating easily converts from cockpit or aft seating to a large sun pad.

ADAPTABLE T-TOP

The Open series features a unique T-top with a canvas bimini and integrated tow point for tow sports.

TOUCH SCREEN

With a Touch Screen Command Center, taking control of your ride is only a tap away.

PREMIUM ENTERTAINMENT

Extend your parties after hours with the Premium Sound System and additional exotic interior lights to match!

WINDSHIELD

Three-dimensional curved windshield for an automotive look. The glass reaches nearly to the edge of the frame, similar to your smartphone.

NOTCHED SEATING

Unique touches make all the difference. We place strategic notches in our seats to maximize leg room within the cockpit.

WAKE SPORTS

Spirited acceleration and shallow water accessibility combined with available ballast systems, digital speed control, and wake enhancement tabs for never before seen versatility. Yes, in a big way, we do wake sports.

SURF STREAM WAKE ENHANCEMENT SYSTEM

Scarab is pioneering jet boat wake technology with a custom factory designed system that is easy to install and remove when not in use.

WAKE EDITION

Configure your Scarab 195, 215 or 255 ID with the Wake Edition Package: wake ballast, a wakeboard tower, board racks, digital speed control, and the Wake Edition graphic—unprecedented wake performance on a jet boat.

DIGITAL SPEED CONTROL

Consistent launches and precise speed control with GPS accuracy when adjusting between Ski, Eco, and Docking modes.

BALLAST SYSTEMS

Weight is the key to a killer surf wake. Scarab offers the ballast essential for delivering wakes with superior height and push.

WAKE TOWERS

Higher tow angles equate to better performance out of your favorite wake sports. Plus, with a nav light up top, your evening runs will extend well into the night.

BOARD RACKS

Suit up and add to your already fierce look with some racks that keep the deck clear and your boards safe.

THE LONG HAUL

Your Scarab custom trailer is built for the long haul! A fully-welded construction means your trailer will take you to your favorite bodies of water for years to come.

KEY TRAILER FEATURES

Key features include diamond plate step pads, a swing-away tongue for easy storage, and LED submersible lighting. (swing-away tongue N/A on 165 models).

COMPONENTS

The exclusive factory warranty covers material, labor, and most boat components for three years; exceptions apply. Our customer service experts use state of the art technology for claim processing; a direct link to the craftsmen/professionals that manufacture your boat. (Trailer warranty limited to one year)

OSMOSIS

A prorated warranty covers osmotic hull blistering for five years. Our engineered Vinyl Esther barrier coat has the best track record in the industry for minimizing hull blistering—a process of construction that gives you peace of mind.

HULL STRUCTURE

Lifetime structural hull or deck warranty applies to the first retail owner. A testimony of hull design and structural engineering makes the warranty transferable to the second owner; limitations apply.

Not all of the Winning Edge limited warranty is transferable. Ask your dealer for all limited warranty details. Warranty applicable to North America Only. For all other locations please contact your servicing dealer.

ID SERIES

Step beyond routine and stand where you desire—unleash your bold and audacious nature. Turn heads through attitude, wicked style, and unrelenting performance. Shred the waterway with your own Scarab Identity because being ordinary is too regular.

255

You've just landed on the biggest, baddest, and boldest of the Scarab Jet boat lineup: the 255. She's well-known for extreme wake sports and lively parties, yet reserves herself for endless comfortable cruising. We brag about the 255—for a good reason—her dynamic versatility and shaped surfs serve up an endless stream of the purest adrenaline rushes in the business.

OPEN SERIES

At Scarab Jet we are revolutionizing fun as much as we are pursuing groundbreaking innovation for our boats. These do-it-all Center Consoles prompt movie-esque rollers, tailgate parties, and exclusive fishing adventures. #Openthepossibilities and expand your imagination because this is what boating was destined to be.

195 Open

Extraordinary versatility and vivacious styling treatments mark the 195 Open. She's nimble, handles like a dream, and comes equipped with features typically reserved for larger, more expensive models. Tailor her as a wake shredder, fishing machine or both; no fun is left behind with the 195 Open.

Stereo System | iNR, Intelligent Neutral & Reverse | Windscreen | Ladder, Stern

255 Open

25 feet of open opportunity symbolizes the 255 Open. Through a desire to showcase new adventure, those memorable moments, and each smile, Scarab was destined to design a highlight reel of a boat. Superiority is keenly evident; take a look at the cockpit. With more space, more flexibility and more style, a boat like this shouldn't be possible, but Scarab loves shattering industry convention.
